Service, maintenance, design and installation of commercial and industrial air conditioning systems

www.resolvemechanical.com.au

RESOLVE MECHANICAL SERVICES Pty. Ltd.

services, maintains designs and installs commercial and industrial air conditioning systems.

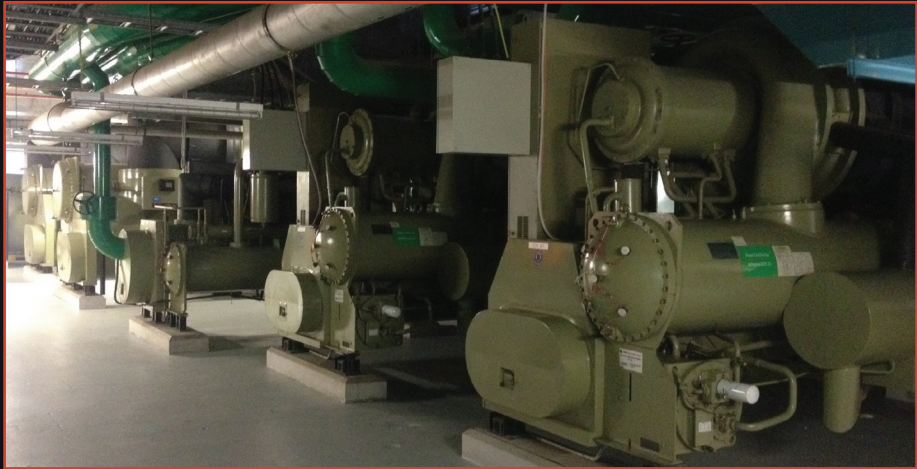

Resolve Mechanical Services is committed to supplying, installing and servicing heating, ventilation and air conditioning systems to both commercial and industrial markets. **Resolve Mechanical Services** proudly operates in the greater Sydney area.

Resolve Mechanical Services is an Australian owned and operated company with combined staff experience exceeding 35 years in the building services and air conditioning industries.

At **Resolve Mechanical Services** we focus on providing the right solutions and valuing our customer relationships by providing a cost effective service with integrity and efficiency in our personalised approach.

We pride ourselves on our reputation and endeavour to be the best performer in the industry. We achieve our results by leading the way in energy management and constantly delivering a high standard of work to our customers.

With a focus on both safety and quality **Resolve Mechanical Services** will always strive to go beyond all servicing expectations. **Resolve Mechanical Services** has a tailored approach to each individual project ensuring industry standards are surpassed.

WHY ARE WE DIFFERENT?

What makes **Resolve Mechanical Services** different? It is the way in which we approach our business. Our even structure, skilled and responsive staff ensures that we can work directly with our clients and our business partners to develop mutually beneficial results.

We're contactable, we're down to earth and we speak plain English. Our results and previous works are a testament to the quality of work and level of commitment in which we pride ourselves.

We offer intelligent and prompt service to all our customers and offer the approach of a business that is family owned and operated.

“As director of Resolve, I am proud to see the company continue to deliver service of the highest standards. Our efforts see our company continue to expand and maintain a brand we are all proud to be a part of. I have adapted an honest, transparent business model with our clients. It is a system that I am proud of, and I hope will continue to satisfy our clients into the future. Customer Satisfaction is not our Aim. It's our starting point.”

A PROUD HISTORY

Resolve Mechanical Services Pty Ltd was established in 2007 and has been providing Air Conditioning and Mechanical Services independently and successfully to the Sydney metropolitan area. Today we stand out as an innovative and progressive contributor to the air conditioning and mechanical services industry.

Resolve Mechanical Services was formed by company director Nathan Gale. Nathan possesses in excess 18 years of air conditioning and building services experience. Nathan has worked on some major projects with previous employers such as Atlas/Trane and has managed multimillion dollar portfolios.
